Training
Seminar

Technical Training with Multicam v8.3

An overview of our new products and software update

Our latest update to 8.3 has opened up new avenues of integration. With our 32 channel hybrid DVR platform you'll be able to tap into a whole new market. This seminar will increase your knowledge about the GV NVR/DVR solution; giving you the tools needed to provide the best service possible to your clients.

Topics Covered:

- ~ New Features and Products
 - The newest analytics and software enhancements of 8.3, Digital Matrix
 - Introduction to the Turbo Card series and Express Cards
 - Product roadmap for upcoming products
- ~ NVR and IP Solutions
 - 32 Channel NVR
 - IP Camera product line
- ~ Mobile Solution with GIS
 - Compact DVR V2, Vehicle Integration Enhancements
 - Software Demonstration and Specs
- ~ CMS Software
 - Control Center, Center V2, Vital Sign Monitor
- ~ Access Control and LPR
 - Upcoming products
